PROFESSIONAL SUMMARY

Entry-level Python Backend Developer who builds and maintains server-side applications using Python, Django, and SQL. Gained hands-on experience through academic projects and internship work. Worked on backend logic, database handling, authentication workflows, and debugging. Understands SDLC practices and follows structured development processes.

TECHNICAL SKILLS

- Programming Language: Python
- Backend Framework: Django
- Database: SQL, SQLite
- Backend Concepts: CRUD Operations, User Authentication, Authorization, Server-side Validation
- Tools: Git, GitHub, Visual Studio Code, PyCharm
- Development Practices: Debugging, SDLC Basics

INTERNSHIP EXPERIENCE

Python Programming Intern – System Tron (Jan 2024)

- Developed backend-oriented Python programs with a focus on application logic and clean code practices.
- Implemented Python programs using functions, control structures, and file handling concepts.
- Debugged and resolved logical and runtime issues using systematic problem-solving techniques.

PROJECTS

An Efficient Deep Learning-Based Firearm Detection System Using YOLOv8

- Designed and developed an academic firearm detection system for public safety use cases.
- Researched object detection techniques using publicly available technical resources.
- Implemented YOLO-based models for firearm recognition.
- Compared YOLOv4 and YOLOv8 models based on accuracy and performance metrics.
- Documented results and analyzed system-level behavior.

Personal Portfolio Website

- Designed and developed a responsive portfolio website using HTML, CSS, and JavaScript.

- Structured content to improve recruiter visibility and ease of navigation.
- Deployed the application on Vercel for fast and reliable hosting.

EDUCATION

B.Tech – Information Technology, K.S.R. College of Engineering, Tiruchengode | CGPA: 7.55 | 2025

HSC – Bharathi Balamandir Matric Higher Secondary School, Chinnasalem | 69.9% | 2021

SSLC – Sakthi Matric Higher Secondary School, Kaniyamoor | 57.4% | 2019

CERTIFICATIONS & ACHIEVEMENTS

- Completed *Introduction to Python* certification from Infosys & Springboard, covering Python fundamentals, control structures, and basic problem-solving.
- Completed *HTML & CSS Essentials Bootcamp* by Let's Upgrade with hands-on exercises in responsive layouts and web structure.
- Participated in an *International Student Workshop on Data Science using Python* focused on Python-based data handling concepts.
- Awarded **Second Prize** at the *International Science Exhibition* conducted at RD International School.
-
