Bengaluru, Karnataka – 560068

PROFESSIONAL SUMMARY

Software Developer with hands-on, project-based experience building full-stack web applications using ASP.NET MVC, ASP.NET Web API, ASP.NET Web Forms, Python, and Django. Skilled in REST API development, SQL Server database design, authentication and role-based authorization, and responsive UI development with Bootstrap, JavaScript, and jQuery. Strong foundation in Object-Oriented Programming, SOLID principles, data structures, SDLC, and debugging, with a consistent record of delivering CRUD-driven, production-style applications. Quick learner focused on writing clean, scalable, and maintainable code.

TECHNICAL SKILLS

Category	Skills
Programming Languages	Python, C#, SQL, JavaScript
Frameworks & Technologies	Django, Django REST Framework, ASP.NET MVC, ASP.NET Web API, ASP.NET Web Forms, ADO.NET, REST API
Frontend	HTML5, CSS3, Bootstrap, JavaScript, jQuery, AJAX, Responsive Web Design
Database	SQL Server, MySQL, SQLite, Database Design, Joins, Stored Procedures
ORM & Data Access	Entity Framework, ADO.NET, LINQ
Authentication & Security	JWT Authentication, Session Authentication, BCrypt Password Hashing, Role-Based Authorization
Tools	Visual Studio 2026, VS Code, Postman, Git, GitHub, Version Control
Concepts	OOP, SOLID Principles, Data Structures & Algorithms, CRUD Operations, API Integration, Exception Handling, Debugging, Testing, Agile, SDLC

KEY PROJECTS

Ticket Management System | *ASP.NET Web Forms, C#, SQL Server, ADO.NET, Web API, Bootstrap*

- Developed a role-based Ticket Management System in ASP.NET Web Forms to streamline support request tracking and resolution. Implemented secure user authentication with login, registration, and role-based authorization for admins and end users.
- Built Forgot Password and Reset Password modules using Email OTP verification to strengthen account security.
- Designed a normalized SQL Server database with stored procedures for full CRUD operations across tickets, categories, priorities, and users, and integrated automated email notifications with an admin reporting dashboard.

Employee Management System | *ASP.NET MVC, C#, ADO.NET, SQL Server, Bootstrap*

GitHub: [link](#)

- Developed an Employee Management System using ASP.NET MVC and SQL Server to manage employee records and organizational data.
- Implemented employee registration, profile management, department assignment, and CRUD operations using ADO.NET for efficient database access.
- Designed responsive Razor Views with server-side validation, following MVC architecture and clean coding practices for a scalable and maintainable application

Django Todo List Web Application | *Python, Django, SQLite, HTML, CSS, Bootstrap*

GitHub: [link](#) | **Live:** [link](#)

- Developed a task management web application using Django's MVT architecture to handle user-specific to-do workflows.
- Implemented user registration, login, logout, and session-based authentication for secure access.
- Built complete CRUD functionality for creating, updating, and tracking tasks, backed by an SQLite database.
- Designed a clean, responsive user interface using Bootstrap for a consistent cross-device experience.

Dolphin Café Digital Menu | *HTML5, CSS3, JavaScript, Bootstrap, Netlify*

GitHub: [link](#) | **Live:** [link](#)

- Developed a responsive digital menu web application to modernize the ordering experience for restaurant customers.
- Implemented category filtering and real-time search functionality using JavaScript for fast menu navigation.
- Designed a mobile-friendly, Bootstrap-based interface and deployed the live application on Netlify.

EDUCATION

B. Tech – Information Technology | K.S.R. College of Engineering, Tamil Nadu | 2025 | 7.55 CGPA

TRAINING

Python Full Stack Development — *PySpiders, Bengaluru | 2025*

- Learned Python and OOP concepts, then built Django and Django REST Framework applications with authenticated, CRUD-based REST APIs.
- Worked extensively with SQL, HTML, CSS, Bootstrap, JavaScript, and GitHub through mini projects and debugging exercises.

CERTIFICATIONS

- Python Full Stack with Data Analytics — PySpiders
- Introduction to Python — Infosys Springboard
- HTML & CSS Essentials Bootcamp — Let's Upgrade

KEY HIGHLIGHTS

ASP.NET MVC, ASP.NET Web Forms, ASP.NET Web API, C#, Python, Django, Django REST Framework, SQL Server, ADO.NET, REST API, JWT Authentication, LINQ, HTML5, CSS3, Bootstrap, JavaScript, jQuery, AJAX, Stored Procedures, CRUD Operations, Database Design, OOP, SOLID Principles, Data Structures, Session Authentication, Role-Based Authorization, BCrypt Password Hashing, Git, GitHub, Postman, Visual Studio, VS Code, IIS, Responsive Web Design, SDLC, Debugging, Exception Handling.
